

Get the edge with Griffith's Year 12 Academic Bootcamps

Griffith's Academic Bootcamps are highly effective four-day courses run in the September school holidays, designed to help Year 12 students achieve their full academic potential in their final external exams.

Make it matter

Bootcamp benefits

Our practical content is designed and delivered by experienced Year 12 teachers who are specialists in the area and are currently teaching these subjects in schools.

They will assist students to:

- gain a distinct advantage
- improve exam confidence
- learn valuable study tips and tricks
- revise and consolidate subject knowledge
- prepare for tertiary study
- learn from different teachers and different teaching styles.

Students will also have access to a Future Students careers session during the course, where they can have questions answered about specific pathways available to them to get into Griffith University.

Students can attend our bootcamps either in person, at our state-of-the-art Gold Coast campus or online.

On-campus subjects

- General Maths
- Maths Methods
- Chemistry
- Physics
- Biology
- Psychology

Online subjects

- General Maths
- Maths Methods
- Chemistry
- Physics
- Biology

Our holiday timetable allows students to attend up to two bootcamps over consecutive weeks. Each bootcamp runs for four days.

When

During the September school holidays. See our website via QR code below for this year's exact dates.

Week One – Maths
Week Two – Sciences

Location

- In person, Griffith University Gold Coast, Brisbane South (Nathan) + Logan campus
- Online
